A Living Road Map

Assisting Humanity in The Great Shift

GENERATIONALLY, we've lived in society whose entire design is to "exploit our 5 senses through programming of one kind or another, to excite every nerve in the human body with fever pitch tension" from constant onslaught of external stimuli. This programming reaches into our psyche to create material cravings, manufacture desires and superficial passions – all in order to lead us to buy the products of their factories, glamour makers, entertainment, and printing presses with the promise to ... what? I'll leave this up to you to answer for yourself.

EARLY DESIGNS OF PROGRAMMING

In the 1920's, the cigarette brand, Lucky Strike, set out to get more women to smoke and buy their brand. After a series of focus groups, it was found that a majority women surveyed were turned off by the color of green in the Lucky Strike logo and packaging. The most obvious fix for this problem was to change the color, but after detailed cost-analysis it was determined that this solution was cost-prohibitive. Instead, they moved to change the perception of their logo and packaging and hired the brilliant minds of a Madison Avenue Marketing agency to lead the campaign. The agency went to work!

Within a short period of time, the fashion industry made Lucky Strike-green *the* apparel color for the coming season. In the windows of department stores and in magazines, women could see Lucky Strike green apparel and images of beautiful, happy women doing everyday things dressed in this 'fabulous green'. High-society black tie galas featured women wearing Lucky Strike-green gowns and accessories. And, to top it all – it was the decade of women's suffrage, so not only were women vote-activists showing up to protests wearing Lucky Strike-green, many were smoking!

The nation was peppered with images of woman-activists smoking and dressed in Lucky Strike-green. Sales of Lucky Strike cigarettes to women skyrocketed.

*Featured below are ad campaigns with programming designs for women **suggesting** smoking Lucky Strike cigarettes was a new way to a slender figure. See for yourself:*

“
We are **governed**,
our minds are **molded**,
our tastes **formed**,
our ideas **suggested**.
”

Edward Bernays
Author – Propaganda

"I'm a "Lucky Girl" because I've found a new way to keep my figure trim. Whenever the desire for a sweet tempts me, I light up a Lucky Strike. It's remarkable how nicely the toasted flavor of Luckys satisfies me. Toasting has taken out all impurities – all that is left is the thrilling Lucky aroma. I certainly am lucky to be "The Lucky Girl."

We are all victims of this programming and have been succumbing to it in our own ways based on our individual beliefs and desires – for our entire lives. There are tracks of evidence from all our systems, not just consumer products, that have been using this type of programming dating back to at least the 1920's, with fresh intensity after the stock market crash in 1929 and the ensuing depression.

How does this statement make you feel?: *“The job of the mainstream media today is to make you think that the views of 10% of the country are actually the views of 80% of the country.”*

What impact has the programming from Hollywood in films and television had on us, knowing average time spent daily watching TV by Americans is three hours? That's three hours of daily programming! If you are over 35, all you need do is stop for a moment and think about how the cell phone completely changed everything about our lives. Perhaps people reading this who have already begun awakening to the impact of their own programming are resonating, feeling invigorated to read words that describe what's been until now, only an unspoken inner knowing.

THE LIGHT IS GETTING IN

There is a crack in the programming matrix and the light is getting in. More and more people are awakening to pull out of this programming as they become aware of how it is impacting them, their family, friends, and neighbors.

The light is information. And with the light brings humanity's collective awakening that there is a great shift happening.

“When you feel the wind blow, often in a gentle way that's refreshing – that's the way the truth is of this shift. You are looking at new energies that you have never had before – presented to you in different ways.”

Lee Carroll, Kryon

WHAT IS THE GREAT SHIFT?

Science and ancient prophecy foretell that humanity is experiencing a great cosmic shift, as our planet is at end of three huge cosmic cycles, beginning a new cosmic cycle. This is a planetary shift as well as humanity's evolutionary shift; a new earth is being birthed, as well the 'new human'. Many believe of biblical proportions. What a time to be alive!

“Ancient and modern-day prophets and their recorded visions for our future ... universally reveal a common theme – they point to the birth of the new millennium as a time when we may expect to see ... great change upon the earth and within our bodies.”

Gregg Braden

SCIENCE TELLS

Quantum Physics, the universal governing science of the universe, leaves no room for 'intelligently' denying that our planet and all of humanity are in this period of great shift. The curious thing about Quantum is its far-reaching implications for us all – it's not a scientists' science – it is a science for all of humanity to know and innerstand.

Over the past two decades, Quantum has birthed new mind/body sciences - epigenetics, neuro-immunology, and neuro-plasticity to name a few - that have expanded our knowledge about our vast human potential – our naturally endowed abilities that in the recent past were catagorized as super-human or called miracles.

We now have within our grasp new skills to break out of programs and seek truth through expanded levels of consciousness. We are drawn to innerstand what is truthfully happening in the world, and we *RESONATE* with the light of truth when we hear it. This is what the *great awakening and the great shift* is.

This great shift is moving us away from our planet being governed by Newtonian science, where 'everything is matter' and which enforced the energies of separation, duality, competition, survival, and fear as the over-riding consciousness in the world. This shift is evolutionary – the energies of quantum, where 'everything is energy', reveals truth about our natural state of Oneness, unity of the spirit, where collaboration and cooperation reigns, and recognizes ...

...*“love as our transformational intelligence.”* (Heart Math Institute)

A New World, A New Human.

THE GREAT SHIFT IS REAL & HAPPENING NOW

If this is all new information and you are reading with a healthy dose of skepticism and perhaps cognitive dissonance is kicking in to make you feel uncomfortable, relax and be still for a moment to contemplate the meaning of this and its significance to you, personally. This is how the start of this great awakening occurs. You are right on time - where you are physically, mentally, and spiritually during this unprecedented historic time is where you are supposed to be – everything in this moment is as it should be.

The awakening process that is upon us reveals that our planet and all of humanity are evolving. This evolution is a participatory process, not a passive one. So, the awareness of humanity and our planet's great shift reveals to each of us that we are at a choice point: Stay unaware, asleep, which keeps you in a state of chaos and confusion – constantly in reaction mode while the world changes around you. Or, like a growing population who are waking up to the science and spiritual truth of what is really happening, prepare yourself to participate fully in THE GREAT SHIFT!

OUR LIVING LIBRARY

Our Living Library is a curation of content intending to serve those of us who are awakening to the truth of what is happening in the world, and, moving to a state of knowing that we have work to do within ourselves before we can evolve and align with this new world. All content created for you as a subscriber is synthesized from the many scientists, visionaries, and spiritual teachers of our time – all who devote their life's work to provide context, meaning, and new skills for this time. Most important, the information within *Our Living Library* now and forthcoming is written with hope – hopeful that readers will bring the information within for contemplation and to think on their own, not readily accept what is being presented. Blind acceptance to information is what got us to this point, where we are seeing outright the systems and the programming of the old world as they fray and collapse under their own dark forces. We need breakthrough over the lies and deception we have been living under for a millennia, and we need each other, collective humanity, to build the world we all dream of, together.

These curated works are synthesized by Marilyn Lynch Carpenter intentionally to create a living road map to assist humanity's evolution in the great shift.

Our Living Library is a new-to-the-world digital offering at a time when humanity is at an unprecedented cross-roads.

EARTH & The New World

Our planet is in great cosmic shift – how does this matter to us and how we will (or won't) move forward into our new, beautiful world being ushered in?

"Heaven on earth was always here – What happened? We built a culture system on false understanding of science that endured for centuries. Now, we are facing an evolution. It's not a passive process. It's a participatory process."

Bruce Lipton

FAITH & CONSCIOUSNESS

'We cannot solve our problems with the same level of consciousness that created them', and there are no chemical solutions to our spiritual problems.

"Faith is acceptance of our power as a directive force in creation."

Gregg Braden

HUMANITY & The New Human

For those of us awakening to TRUTH and giving life to the inner stirrings of light to evolve, you will discover kindred spirits and assistance from geniuses for your journey.

"Our old ways of being human are simply not supported by the nonphysical world any longer. We're getting cracked in half because our understanding of how life works has been so small."

Carolyn Myss

WE'VE GOT WORK TO DO

We have the power to heal our bodies, heal our emotional trauma, enjoy rich and loving relationships, have abundance and prosperity, to be of service to others with our unique giftsYou just have to want it.

"Desire is the first move."

Stuart Wilde

BOOK STUDIES ON OUR LIVING LIBRARY:

Stay tuned for more ...

The importance of this body of work cannot be understated to help humanity today with the most important endeavor we can take up at this time in history – evolving our consciousness. The learnings are condensed [leaving out Dr. Dawkins's scientific methods] to appeal to our HEARTBRAIN in the hope of reaching more people who might be stirred into many 'aha' moments. Dawkins wrote: *"This book will have been successful if, by the end of it you exclaim, 'I always knew that!' What is contained herein is only a reflection of that which you already know, but do not know that you know."*

A great wish is for you to be inspired to read this book study with the aha moment – 'this is what you've been looking for', but the ultimate wish is for you to be inspired to do something, one step even, towards evolving your consciousness. When you realize this evolution in consciousness really means to develop your innate super-abilities, the journey becomes intriguing and enjoyable in a continual 'WOW' kind of way. And, as you will discover, there is your impact on all of humanity to think about as well. Hawkins has built a sound bridge for us to now pursue the intrinsic yearnings of our soul without fear of being labeled crazy or 'off-the-reservation' by society around us.

Could there be a lost science that allows us to transcend the themes of war, destruction, and suffering long predicted for our time in history?

Gregg Braden opens his Introduction with this question, which drives his energy towards answering this question throughout his investigation of The Great Isaiah Scroll. And as such, the twenty-five-hundred-year-old texts, as well as modern science, suggest that the answer to these and similar questions is a resounding Yes!

"We live our lives, solve our problems, create our relationships, and care for our bodies based upon the way we've been taught to think of ourselves. We've been taught that we're powerless and insignificant beings living in a world of competition, conflict, separation, and struggle. This false belief is reflected in everything from how we approach our most intimate relationships to the social issues that are destroying our communities and societies today."

"Stunning new research has called into question 150 years of scientific thinking on everything from evolution and humanity's origin to our relationship with other people and with the world."

"Ancient traditions remind us that we have come to this world for one reason above all other reasons. We are here to love and to find a love even greater than any known by the angels of the heavens. This book is dedicated to our search for love and the memory of our power to bring heaven to earth."

Marilyn embodies these three talents that combine to make her the unique creating spirit of Our Living Library.

Marilyn is also the Proprietor of Saqred Energy, located in Belmont, NC. Saqred Energy is home to gifted and spirited independent practitioners in energy medicine, bodyworks, and alternative wellness to assist the natural healing and longevity of each client.

Marilyn began her own awakening journey in 2017 - that served to inspire her to shutter her successful consulting and business coaching practice in 2019 to participate fully in the burgeoning energy medicine | mind-body medicine revolution. This ‘health industry’ revolution is just a small part of the great shift, as we lay witness to the programming and systems of the old world being dismantled, making way for unlimited possibilities for a new world we will build together.

*We raise our hearts to the hope that you will join us on this journey
to awakening and building our new world, together.*
